PROFESSIONAL SUMMARY

Content and brand communication strategist with 9+ years building brand narratives, campaign copy, and visual storytelling systems across luxury retail, healthcare, hospitality-adjacent, and lifestyle sectors. Experienced owning content end-to-end - strategy, copywriting, creative coordination, scheduling, community engagement, and performance reporting - across multiple concurrent client accounts simultaneously (jewellery, healthcare, and lifestyle clients). Direct premium-brand experience from Tanishq (Titan Company), where consultative, trust-building engagement drove 120% of sales target. Track record of data-informed content that converts - campaign conversion lifted 20% to 55% and 30% to 60% through structured, audience-focused messaging - and of organic social growth without paid spend (300 to 1,030+ Instagram followers in 10 days). Comfortable with AI-assisted content production, including AI-generated video (Google Flow), to keep content calendars moving faster without losing brand polish.

CORE STRENGTHS

- **Multi-Account Content Management:** Coordinated content, campaigns, and creative delivery across several concurrent client accounts spanning jewellery, healthcare, and lifestyle brands.
- **Premium & Luxury Brand Experience:** Delivered consultative, brand-aligned customer engagement at Tanishq (Titan Company), a premium jewellery retailer, achieving 120% of sales target.
- **Content Strategy & Copywriting:** Built editorial calendars, campaign messaging, and storytelling frameworks that lifted conversion from 20% to 55%.
- **Visual Storytelling & Creative Coordination:** Directed multimedia storytelling, brand narrative development, and coordination with photography/production and creative teams.
- **Organic Growth & Analytics:** Grew Instagram engagement from 300 to 1,030+ followers in 10 days with zero paid spend; certified in Google Analytics (GA4) and SEMrush.
- **AI-Enabled Content Production:** Produces AI-generated video content (Google Flow) and uses AI-assisted workflows to speed up content structuring and documentation.
